

## SPRAY TAN MAINTENANCE PLAN

# 1

### PREP: 24 HOURS BEFORE

Pre-appointment exfoliation is the first step to achieving flawless results. Clear away dry, dead skin cells with a sulfate-free scrub for a longer lasting, even fading spray tan. Gentle enough for the most sensitive skin, *Norvell's Renewing Sunless Exfoliator Scrub* instantly eliminate dryness while evening out the tone and texture.

**Pro Tip:** Be sure to complete any waxing, threading and/or shaving 12-24 hours prior to your session. Do not apply any lotions, oils or perfumes before your session and use deodorant sparingly.

# 2

### PRIME: DURING YOUR SESSION

Your Tan Glam technician will apply a complimentary *pH Balancing Spray* to your skin to boost amino acid levels which hydrate the skin for better, even absorption of the sunless solution. We offer complimentary hair nets, sticky feet, nose filters, nipple covers and disposable thongs. After application, your technician will apply *SunSet*, a powder we've created that will set and dry your spray tan to preventing creasing and absorb moisture.

**Pro Tip:** Apply *SunSet* in areas you are prone to sweat to make sure your color lasts even longer and fades more evenly.

# 3

### PERFECT: AFTER SESSION CARE

Using a sulfate-free, pH-balanced cleanser and oil-free moisturizer are key to making the most out of your spray tan. *Norvell's pH Balancing Cleanser* is luxuriously foamy packed with moisturizing agents while their *Body Butter* is rich in nutrients.

**Pro Tip:** Refrain from showering with soap for 8-24 hours after your appointment, if possible. Skip out on washcloths, loofahs and hot, long showers. The more you moisturize, the better - so long as you're using the right products.

# 4

### PROLONG: MAINTENANCE

Extend and enhance your color between sessions with a daily application of our *Venetian Color Extender Lotion* and *Venetian 4-Faces*. Both formulas combine violet and brown tone bronzers, designed to mimic that of your spray tan. Together, they extend the color of your spray tan.

**Pro Tip:** Use the facial spray as a semi-permanent way to contour face and body. Ask us for more info!

#### WAYS TO SAVE

- Tag your tan and send us a selfie [@tanglamnyc](#)
- Write a review on Yelp, Google, Facebook or the Knot

#### DID YOU KNOW

We've added makeup application and teeth whitening to our list of services.
